## SOLUTIONS – Corporate Branding

### Our business is making yours look good

From custom-designed uniforms and merchandise to product launches and client gifts, Action Australia specialises in solutions that suit your business objectives and your brand.

To really hit the mark and maximise your return, there's a whole lot more to it than simply placing your logo on a hat (although we can do that too). Depending on the help you're looking for, we take a more strategic approach to promotional products by delivering a combination of the following services:

- Getting involved early on in the briefing process to gain a full understanding of the project, your business and your brand style guides
- Developing creative concepts, artwork, ideas and strategies to achieve your results
- Source creative and unique promotional products for your consideration
- Custom design, prototype and manufacture the perfect item for you
- Taking the hassle out of large orders by providing inventory management tools to automate ordering, storing, stock levels, picking, packing and delivering

Chattering teeth for a dental surgery, retro tracksuits for radio announcers or thousands of compendiums for the Government, we'd love the chance to show you what we can do for you.

**Let's talk about branding your business! Call 1300 NAME IT (1300 626 348) or email us.**
