Australia's Petrochemical Design Risk and Safety Specialists

## Welcome

### Australia's Petrochemical Design, Risk and Safety Specialists

Combining years of practical experience with the best in technical expertise, Moore Consulting & Engineering (MCE) delivers end-to-end services to the petrochemical industry across all areas of dangerous goods, occupational health and safety and fluid management systems. When it comes to dealing with fuel, chemicals and risks, you can rely on MCE to ensure that it is managed in an **efficient, safe** and **cost effective** manner.

From site audits, risk assessments, petrochemical handling and storage consultation, through to specialist design advice for fuel depots, our wide range of clients has included Mobil Oil, Telstra, Department of Defence, Integral Energy and [more](#).

MCE formed out of a need for independent industry experts, removed from the traditional oil and environmental industries. Our staff is made up of qualified engineers and scientists with in-depth experience in the petrochemical, environmental and water treatment industries.

**For more information about how MCE can assist your business, contact us in Sydney** on [+61 \(02\) 9894 4551](tel:+61298944551), **Brisbane** on [+61 \(07\) 3124 9066](tel:+61731249066), or **Perth** on [+61 \(08\) 9336 3156](tel:+61893363156) or email [enquiries@moorece.com.au](mailto:enquiries@moorece.com.au)

Australia's Petrochemical Design, Risk and Safety Specialists

## About Us

### More vision. More Insight. More Care.

Moore Consulting & Engineering (MCE) began as an engineering group focusing on the requirements, benchmarks and standards facing the hazardous goods industry.

Staffed by qualified engineers and scientists with a proven track record in the petrochemical, environmental and water treatment industries, MCE now provides quality service, advice and management across an entire range of sensitive and dangerous industrial issues.

MCE has over 10 years experience and unparalleled industry-specific knowledge. We provide excellence in all aspects of design, occupational health, safety, risk, consultation and engineering to better equip organisations for the safe and compliant storage and handling of fuels and chemicals.

As a quality endorsed company we offer our clients the assurance that we have a recognised quality management system that encompasses all our systems and processes. From Mobil Oil and Telstra to the Department of Defence and Integral Energy, we have an ever increasing [client base](#) across industries covering Government, Defence, Aviation, Petrochemicals, WorkCover and more.
